# What is SAT exam?

The SAT Reasoning Test is a standardized test for university admissions in the United States. The SAT influences the management of the non-profit activities of the College Board, although it previously runs the Educational Testing Service, which is still involved in the management. According to the College Board, the exam can do a good job of assessing students' college readiness. It was first introduced in 1901, since then the name and scoring system have been changed more than once.

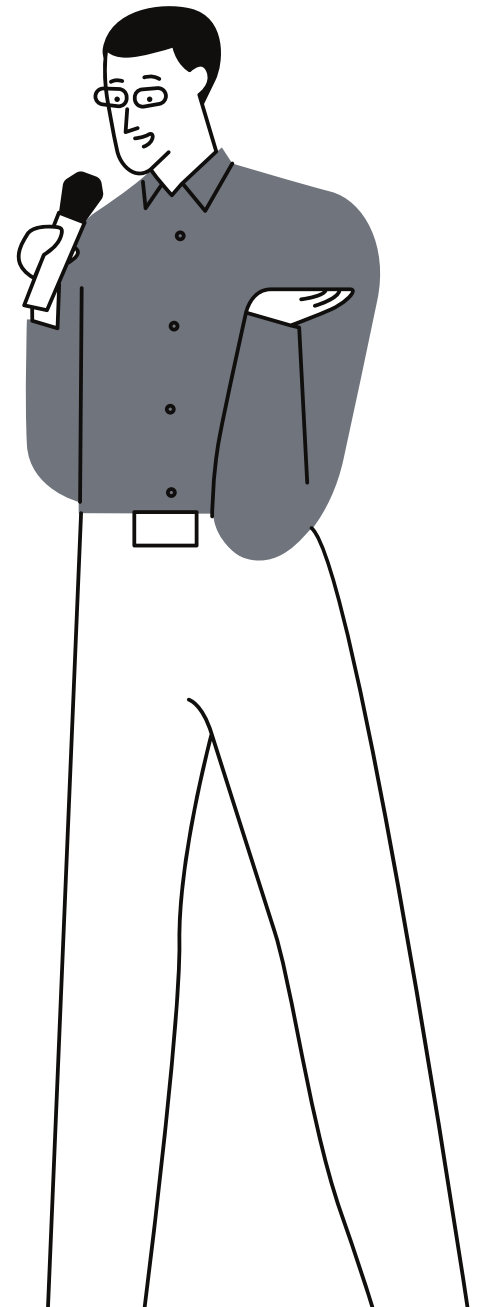

# What is college list and how to create it?
