The rules of
Easy Quizy

The rules of "Easy Quizy"

- 7/6 rounds in offline game and 6 in online, 2 hours (if you play in a cafe with breaks to eat) to play (timing, number and duration of breaks, as well as the nature of rounds can be changed at the request of the client).
- The questions will be on completely different topics -from grammar rules to music (we will select questions according to complexity, based on the client's wishes).
- To start the game, we divide the guests into teams: it is usually convenient to hold the game during a banquet, because each table is a ready-made team.
- The answers are recorded on special forms and after each round are given to our assistant and presenters.
- For each correct answer, teams receive points. Whoever has more points wins! At the end of the game, the guests will receive an award ceremony for the winners.

Our team offers you:

- The presenter and assistants for scoring;
- Questions designed in the form of a presentation and selected according to your wishes;
- All the necessary props for the game;
- Cheerful music, cool game and a great mood for all the guests!
